Dear The Federal Communications Commission,

I urge support of the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). Consumers like me should not have to pay the same rate into the USF as big businesses, regardless of how little I may use long distance. Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to keep the USF fair, and adopt the Fair Share Plan.
